To Whom it May Concern,

I have just reviewed the EIR for the Long Beach Municipal Aiport expansion plan, and lend my full-throated support of the full expansion plan as outlined. With the minimal impacts outlined in the EIR, creating a modern, right-sized facility at LGB will serve the community well as well as create a true gem for a "first impression" for those using LGB as a port of entry to the Long Beach and Southern California area.

Please register this email as a YES for full expansion as outlined in the EIR.

Thank you.
